SENIORMANAGEMENT

National Bank of Dominica . 2004 Annual Report . 7

CHAIRMAN'S STATEMENT

On December 29, 2003 the National Commercial Bank of Dominica was transformed into the National Bank of Dominica as a result of the simultaneous repeal of the National Commercial Bank Of Dominica Act, the registration of the National Bank of Dominica (NBD) under the Companies Act and the divestiture by the Government of Dominica of its majority shares in the Bank. The majority of the Directors of the Bank are now elected by shareholders other than Government. The appointments of the Chairman and Managing Director are now the responsibility of the Board of Directors as opposed to the Minister of Finance. NBD, Dominica's premier indigenous bank, is now a truly private financial institution with Government as the largest single shareholder.

The privatisation of the Bank is a pivotal step in enhancing the role of the private sector in the economic development of the country. I would like to take this opportunity to congratulate the Government on this bold move and to encourage the private sector and the general public in Dominica and in the Diaspora to expand its ownership of, as well as its business relationships with the Bank. The Bank will remain true to its original mandate of being a catalyst for economic development in the country while simultaneously responding to stakeholder needs and increasing shareholder value.

The Financial Year ending June 30, 2004 has been another year of challenge for the Bank. While there have been reports of signs of a broad-based economic recovery, the impact of a stagnant economy continued to affect the Bank's operations. The loans and advances portfolio declined by 21.9%, mainly due to the loss of a large corporate client and to a significant reduction in Government's overdraft balances. The Bank is increasing its efforts to diversify the portfolio in order to reduce its overdependence on a few large clients.

Despite the many challenges, the Bank has been able to register a number of improvements in its performance. We are proud to announce that NBD has now joined the family of indigenous banks with assets of over one half-billion Eastern Caribbean Dollars. Highlights of the Bank's performance can be found at the beginning of this report and include an increase of 54.7% in

investment income and a 13.9% increase in profits. Accordingly, the Board of Directors is pleased to declare a dividend of \$1.50 per share.

In pursuit of its growth strategy, the Bank acquired the banking business of Banque Francaise Commerciale's branch on Independence Street. As a result of this acquisition, the Bank was able to increase its customer base as well as its asset value. The transaction also provides the Bank with an opportunity to leverage significant earnings from the acquired portfolio. Consequently, the Board of Directors is pleased to declare a one for ten bonus share issue. In order for this issue to take legal effect, shareholders are being asked to increase the authorised share capital of the Bank by resolution at a Special Shareholders Meeting which will immediately precede the Annual General Meeting.

The Bank must begin to position itself for future listing on the Eastern Caribbean Securities Exchange (ECSE). The Board has therefore decided to effect a twenty for one stock split and to dematerialise share certificates by transferring the administration of the share ownership of the Bank to the Eastern Caribbean Central Securities Registry Ltd. (ECCSR), both these decisions to take effect immediately after the first AGM on December 13, 2004.

The Bank has continued to diversify its revenue base. Income from investments has increased as efforts were made to maximize returns on excess liquidity in a period when the demand for good loans has fallen. The Securities Unit has increased its level of activity, having facilitated Dominica's first listing, Dominica Electricity Services Limited (trading symbol - DES). Other products are expected to be launched early in the upcoming financial year including the long awaited International Debit Card.

The Bank has continued to invest in human resource development at both staff and board level, with training and exposure being provided in a variety of relevant topics at both levels. The Board also instituted an Audit & Risk Committee to take care of what has become one of the most critical functions in corporate governance today.

Since the privatisation of the Bank, the number of Directors has increased by one to nine (including the ex-officio position of Managing Director).

At its first General Meeting, NBD shareholders elected or appointed Messrs Franklin Baron, Phillip Norman Rolle, Cary Harris, Ackroyd Birmingham, Steven Mayers, Ensley Pierre, Milton Lawrence and Mrs. Margaret George to the Board of Directors. In keeping with the new bye-laws of the Bank, the Board elected Milton Lawrence to the position of Chairman and Mr. Franklin Baron to the position of Deputy Chairman. The Bank would like to express sincere thanks to former Director Ossie Symes for his long service and significant contribution to the Bank during his 8 years of tenure as a Director.

The Bank is now operating in a global environment where services are being offered by competitors all over. NBD has to position itself as a modern financial institution offering a quality of service comparable with the best. The future success of the Bank will depend on its ability to become more cost efficient and to introduce new services that add value to its customers in a sector now being dominated by technology. We have to be able to compete with larger international institutions for the business of our nationals in the Diaspora.

On behalf of the Board of Directors, I take this opportunity to thank the public for their continued support of the Bank and the Government of Dominica for continuing to use NBD as its banker of choice. Additionally, I wish to thank my fellow Directors for their unwavering support throughout the year.

Finally, I wish to express sincere appreciation to the Management and Staff of NBD for their perseverance throughout the difficult period of economic adjustment and to congratulate them on enabling the Bank to show positive results for the year ended June 30, 2004.

Commerciale's branch on Independence Street. As a result of this acquisition, the Bank was able to increase its customer base as well as its asset value. The transaction also provides the Bank with an opportunity to leverage significant earnings from the acquired portfolio. (chairman's statement cont.)

MANAGING DIRECTOR'S REPORT

The National Bank of Dominica (NBD) continues to operate in a difficult economic environment. It is clear, however, that the economy is showing prospects for recovery and this is encouraging for NBD in its quest to achieve its strategic objectives. During the year, the Bank continued to focus on its Strategic Plan adopted in 2003, namely: Growth and Diversification, and has for the first time, reached the landmark achievement of ONE-HALF BIL-LION DOLLARS IN ASSETS.

GROWTH

NBD completed the purchase of the Assets and Liabilities of the local branch of Banque Francaise Commerciale, and assimilated the entire staff complement. The acquisition is a direct manifestation of the Bank's execution of its Strategic Plan for growth. The transaction added 1,600 new clients to the Bank's customer base, \$6.7M to its loan portfolio and cash deposits of \$38.6M. The new branch created by this acquisition has also made significant impact on the Bank's commitment to improving its customer service by establishing a new outlet for the sale of additional financial products to its larger customer base.

The focus on growth resulted in the following:

- An increase in the staff complement at Ross University Agency;
- Expansion of office space at the Canefield Branch;
- Restructuring of the top floor at the Roseau Head Office to create office space for the new International Debit Card; and
- Reconfiguration of the Roseau Head Office ground floor to make it more customer friendly.

Diversification

The Card Centre

An integral part of the Bank's strategic direction, the *Diversification Strategy*, has occupied a large portion of the Bank's planning and implementation process during the year.

One significant area of Diversification was the establishment of the Card Centre which will achieve three main objectives:-

> Change the marketing habits of the card personnel and thereby the sales culture of the Bank

Increase the number of card holders and the revenue to be derived from the issuance of debit cards, credit cards and Point Of Sale service.

Bundle the issuance of the cards with other services and products of NBD, including co-branding NBD's debit card with reputable international institutions.

INVESTMENTS

The Bank also devoted significant time, personnel and resources to the development of its internal investment strategy. This was accomplished through the introduction to the Bank's Board and Senior Management of various professionals and practitioners in the money markets, capital markets and in Investment Planning and Management (IPM). The Board has approved new Investment and Liquidity Management Frameworks which will guide the Bank's direction in these areas.

As a result of the Bank's commitment to the investment planning and management initiative, one can observe in the Bank's Balance Sheet a definite shift in the balance of the Bank's revenue base, by the increase in amounts allocated for Investments this year compared to the previous year. The result of this is also reflected in the differences in the Bank's revenue from this category of earnings.

Managing Director's Report GROWTH AND DIVERSIFICATION

National Bank of Dominica . 2004 Annual Report . 11

PRIVATIZATION

During the year, Parliament repealed the National Commercial Bank of Dominica Act (Chap. 74:02) to pave the way for the privatization of the Bank. The National Bank of Dominica is now registered under the Companies Act of Dominica. This has resulted in a change in the ownership structure of the Bank, whereby the Government of Dominica no longer has the exclusive authority to appoint a majority of Directors, the Chairman, and the CEO of the Bank.

The Year Ahead

The Bank is poised to implement a number of new initiatives which will affect the Bank's performance in the years ahead. NBD is confident that as the economy continues on the path of recovery, there will be significant areas of opportunity for the Bank and its Staff to achieve the objectives that the Board of Directors have set in the Bank's Strategic Plan.

The Bank is set on the path of Growth and Diversification. The decisions taken in the past year demonstrate the Bank's resolve in that direction. The Bank has succeeded so far in achieving growth in its customer base, asset base and branch network. It has diversified into Card Services, and has expanded its Investment Services with a view to broadening its product and earnings base.

All these, as well as the other new products and services already in the pipeline and to be rolled out will contribute to increased profitability and increased shareholder value.

I wish to congratulate a dedicated and conscientious staff on a successful year of operations and take special pride in recommending this Annual Report to Shareholders.

DIRECTORS' REPORT

Community Profile

NBD continued to discharge its social responsibility as a good corporate citizen. We remained committed to the development of education, sports, culture and other areas of the social life of the nation. Our employees also continued to give of their time to serve on various voluntary organisations in the areas of sports, small business development, youth and culture.

COMMUNITY SUPPORT

Our financial support of community-based programmes and activities increased by 30% over the preceding year.

The Bank made a sizeable contribution to the 2003 Independence celebrations, as well as contributing to village Carnivals island wide.

The Bank sponsored a Carnival Queen during the 2004 Carnival celebrations.

In the area of sports the Bank sponsored various sports teams and tournaments including the Under 16 Cricket Championship.

On Community Service Day 2003, management and staff embarked on a clean-up project at the Goodwill Primary School. This included a complete clean up of the school surroundings including painting the external part of the school and the toilet facilities. Various contributions were also made to schools island wide particularly at the end of the school year.

During the 2003 Christmas celebrations the management and staff of the Bank hosted a Christmas party for the children of the Grand Fond and Riviere Cyrique Primary Schools. This is an NBD tradition stretching many years whereby a different school is hosted annually. Gifts were presented not only to the children but to the teachers and the school as well.

The Bank was also pleased to sponsor in part a Housing Symposium held at the Financial Centre during the month of August 2003, aimed at sensitizing and educating the public on the different facets of the industry.

Other recipients of assistance during the year include The Dominica Association of Disabled People, The Christian Children's Fund, The Dominica Government Band, The

DIRECTORS' REPORT

Dominica Cricket Association, The Dominica Amateur Volley Ball Association, The Dominica Teachers Association, The Dominica Net Ball Association, The Dominica Council On Ageing, The La Plaine Village Council, The Dominica Olympic Committee, and The Dominica Flag Wavers Association, among others.

REPORT FROM DEPARTMENTS:

Credit

The biggest challenge during the year has been that of improving the quality of the portfolio. In recent times, there has been a greater sense

of urgency towards that goal. To alleviate and assist the process an in-house attorney was employed. This initiative was undertaken to reduce the negative impact of the protracted legal process, to accelerate the collection efforts and to reduce the legal costs involved.

Total loans and advances for the period decline to EC\$ 144.3 million from EC\$185.0 million, a reduction of EC\$40.6 million or 21.9% over the previous year. Loans to total assets ratio declined from 42% in 2003 to 28.2% in 2004. This decrease resulted from a combination of the continued weak demand for sizeable loans, a more cautious approach to lending and finally the reduction in central government facility at the bank (a combined total of over EC\$ 51.0 million)

Loan/Deposit Ratio fell significantly from 52.8% last year to 34.8% this year. This figure continues to be substantially lower than the prudential benchmark and could be attributed to the direct result of increases in customer accounts and the unfavorable lending environment consistent with the prevailing economic conditions.

PROVISION FOR PROBABLE LOAN LOSSES

The NBD group maintains prudent provisions for probable loan losses. These provisions are determined by an annual exercise to assess the likely loss in the loan portfolio. The provision comprise of specific amounts for loans deemed uncollectible and general amounts for the portfolio as a whole. The procedure is conducted by the staff of the Credit Department

National Bank of Dominica . 2004 Annual Report . 13

Growth & Diversification

and the Credit Committee of the Board in a manner consistent with the prudential guidelines set by the Eastern Caribbean Central Bank, and reviewed by the Bank's external auditors.

At the end of the 2004 financial year, the net provision for Probable Loan Loss increased significantly by EC\$15.2 million or 122.7% to EC\$27.6 million or 19.1% of the Total Loan portfolio.

This increase is due in the most part to the acquisition of BFC from which EC\$14.1 million in new provisions was acquired, while the remaining EC\$1.5 million is new provision of NBD's existing portfolio.

HUMAN RESOURCES

The Human Resource department of the bank set out to create a mind-shift where employees are viewed, and in turn view themselves as contributors to strategy both at the level of formulation and implementation. This also means the strengthening of employees' understanding of the direct impact of their performance on that of NBD.

During the year under review, the department undertook a people's strategy designed to fully engage all levels of the organization, the ultimate goal being to obtain optimum productivity from employees. A major component of this effort was to make the employee "the customer" of the Performance Development and Review Process, so that the potential of every employee can be identified and developed consistent with and supportive of both personal and institutional goals and objectives. Critical elements of this direction includes:

Development of the required attitudes to work more efficiently and effectively; Achievement of the level of knowledge, skills and related competencies to perform assigned functions, at the institutional, team and task levels

Continuous review of performance and achievements on activities and tasks in relation to the Bank's Strategic Goals and Objectives.

To develop the required positive attitudes to work in support of the bank's strategies and objectives. This approach is considered to be a major contributor to NBD's achievement of its objectives and reinforces the fact that the NBD will continue to be as good as its people.

Training and financial assistance was provided to a number of employees who undertook various programs of study, including Executive Master in Business Administration, and Bachelor and Associate Degrees. Several employees were also enrolled in various certificate courses with banking institutes such as the Institute of Canadian Bankers and the American Bankers Association.

Operational training was also provided locally to supervisory and credit staff. Of significance was the Performance Development and Review (PDR) system, which is aimed at the following:

- Improving the performance of all employees;
- Stimulating critical thinking on career development;
- Delivering recognition for individua land team efforts and achivments.

In addition all staff benefited from training in Customer Service, Performance Development Review and Sales Culture and two staff members Messrs. Milton Sebastien and Alexander Stephenson were awarded scholarships to pursue the Executive Masters in Business Administration

at UWI, Barbados employees; Stimulating critical thinking on career development; Delivering recognition for individual and team efforts and achievements.

INDEPENDANCE STREET BRANCH

The PDR process is team based and has real focus and meaning when it is linked to the Institutional Values, Mission, Vision, and established strategic goals. This set of policies, relationships, processes, and procedures identify and facilitate employee growth and development. The achievement of this purpose is in turn a fundamental prerequisite to the generation and maintenance of key competencies within the Bank. The department also coordinated organizational changes and ensured a smooth integration of the former BFC staff into the NBD family. Generally, staff demonstrated commitment and dedication to assigned tasks. There was also additional enjoyment as staff celebrated achievements and birthdays, participated in outings and other activities aimed at all-round involvement and bonding.

INFORMATION SYSTEMS (IS)

The National Bank of Dominica was the first in Dominica to introduce ATMs to its customers and since then has allocated considerable resources to provide the latest in banking technology (accepting VISA and MasterCard at the ATMs) and an extensive network of ATMs and Point of Sale (POS) terminals. Currently, there are six (6) ATMs in operation with advanced plans to increase the number to nine (9) and over one hundred and fifty (150) POS terminals at various merchants

island wide, with new merchant applications being made daily.

In addition to its ATM and POS network, the Bank offers Telephone Banking Services, Utility Bill Payment at the ATMs and will soon be introducing NBD International VISA Debit Card, Utility Bill Payments and Funds transfer via the Bank's Website. In order to enhance the bank's 24-hour ATM service, two employees attended a one week ATM Maintenance Training Course conducted by King Computers. This brings the number of ATM Support Personnel to three (3).

ANTI-MONEY LAUNDERING

The Bank continued to ensure that its operations comply fully with the requirements of the Anti-Money Laundering Act and all other relevant legislation domestic and international. The procedures by which the Bank verifies the identity of customers

PROCESSING DEPT.

National Bank of Dominica . 2004 Annual Report . 17

was enhanced and due diligence checks are being performed as required.

The Bank remains vigilant to ensure that it is not used as a vehicle to facilitate money laundering or terrorist financing. Particular attention is paid to the movement of funds between Correspondent Banks and a Source of Funds Declaration is mandated in cases where confirmation is required.

Training continues to be a key component of the Bank's compliance program and every effort is made to keep staff current on developments both on the local and international levels. Formal online training is provided for staff at all branch locations and subscriptions to relevant publications are also made available.

Ross University Agency

BRANCH OPERATIONS AND SUBSIDIARY COMPANIES

During the year the Bank acquired the banking operations of the Banque Francaise Commerciale AG, Dominica Branch (BFC) and effective May 4, 2004 the operations were conducted as the National Bank of Dominica- Independence Street Branch (ISB). All 13 staff members of BFC were retained with the acquisition and assimilated in various departments of the bank. The acquisition of BFC will provide for additional delivery channels locally, increased customer base and greater access to the regional French market.

Renovation works were carried out at the head offices on Hillsborough Street, to provide for the growth in departments within the Bank to improve the efficiency of operations.

At the Ross University Agency, the Bank

increased office space in order to make it's operations more user friendly, given an increasing school population.

NATIONAL MORTGAGE FINANCE Company

During the year eight loans amounting to 0.8M were disbursed compared to the previous year when eight loans amounting to \$1.5M were disbursed, a reduction of 81% or \$0.7M. Total Loans declined by 17.7% from \$15.2M to \$12.8M while Total Assets increased by 4.1% from \$21.7M to \$22.6M. Total income increased by 25% from \$1.6M to \$2.0M. Net Earnings recorded a significant increase of

Financial Highlights					
	2004	2003	2002	2001	2000
	\$'000	\$'000	\$'000	\$'000	\$'000
Assets	22,665	21,774	20,527	19,967	19,241
Deposits	12,500	12,509	1 2,500	12,500	12,500
Loans	12,857	15,234	16,667	16,372	14,611
Equity	10,013	9,140	7,904	7,307	6,505
Net Profit	873	294	707	802	598

196% from 294K to 873K. The decline in Total Loans is reflective of the generally poor loan market and reduction in mortgage rates.

The increase in Net Income results from a reduction in Loan Loss Provision this year and the collection of interest previously suspended.

Retained Earnings now stands at \$\$10.0M, an increase of 10%.

Securities Unit

In addition to providing mortgage finance for home owners the National Mortgage Finance Company (NMFC) provides a platform for the broker/dealer operations, which opened for business in February 2003. NMFC obtained it's license from the Eastern Caribbean Securities Regulatory Commission (ECSRC) in December 2002. During the year ended June 30 2004, NMFC participated in trades in equity securities, purchases of Government Securities on the Regional Government Securities Market (RGSM).

During this period the Unit successfully listed Domlec on the ECSC and facilitated trade

activity recorded in Treasury Bills and Notes valued at EC\$33.6 million, sell orders totaling \$27.6 million and buy orders valued at \$6.0 million. The Unit traded in all of the equity securities listed on the ECSE. These included East Caribbean Financial Holding (ECFH), Bank of Nevis Ltd. (BON), St. Lucia Electricity Services LUCELEC (SLES), Dominica Electricity Services Ltd. DOMLEC (DES), the St Kitts Nevis Trading & Development Company Ltd. (TDC) and St. Kitts Nevis National Bank (SKNB). The market

prices of these shares traded, ranged from \$2.10 to \$12.50 during the year

NATIONAL INVESTMENT CORPORATION

The company was established in 1997 as a joint venture with the Dominica Social Security to construct, develop, rent, manage, market and invest in real estate.

Under the direction of an independent Board of Directors NIC became a wholly owned subsidiary in 2002 and is in the process of formulating plans to undertake Joint Ventures with public and private sector companies.

FINANCIAL REVIEW GROUP RESULTS

NBD's over 1/2 billion dollar total assets milestone was achievable in large part to customer confidence in the Bank. Total Deposits grew by 18.46% or \$64M over prior year results. This growth translated into \$200M in short-term funds, including cash, the highest liquidity position the Bank has experienced in 26- year history, representing 39% of total assets.

This high liquidity experienced occurred within the context of the current recession in Dominica, where lending activity in general has declined by about 22%. Our own lending rates have therefore been on a steadily declining trend, dropping from 10.5% in 2000 to 7.5% in 2004. The poor lending climate and fiercely competitive market have therefore resulted in a drop in Loans & Overdrafts from \$185M in 2003 to 144M in 2004 or a 21.9% decline.

To sustain the performance results, NBD has had to diversify its portfolio in the year under review to focus on short to medium-term investments. In 2004 investments rose by \$74M or 107.44% over 2003 levels to \$142M. The bank increased its investment activity in order to strategically balance its Earnings Assets portfolios and effectively deploy some of its excess liquidity.

Pre- tax earnings of the group in 2004 climbed to \$4.4M, a 13.9% increase over 2003 levels.

The wholly owned subsidiary, National Mortgage Finance Company (NMFC) recorded asset growth of \$1.8M or 8.3% over 2003 levels to \$23.5M.

The Eastern Caribbean Central Bank's June 30, 2004 report on the banking sector in Dominica indicated that total commercial Bank's assets grew to \$1.023BN, an increase of \$104M or 11% over the corresponding period last year, of which NBD enjoyed \$511.5M or 50% of market share. This is an increase 5.6% in the bank's share of the market from 44.4% in 2003.

Accoring to Central Bank's statistics, total domestic Loans and Overdrafts market declined by \$52M or 21.93% to 481M in 2004 compared to \$583M in 2003. NBD's portion of this market stood at 30% as at June 30, 2004 down from 34.64% in the 2003 period.

The total Deposits market posted a significant increase for the second year in a row. Deposits grew by 13.32% to \$860.8M of which NBD secured a 48.2% market share, up from 44.4% in 2003.

Despite the difficult economic situation the National Bank has been able to grow its market share, succeeded in achieving some of its strategic objectives, and return reasonable results during the year.

year history, representing 39% of total assets.

This high liquidity experienced occurred within the context of the current recession in Dominica, where lending activity in general has declined by about 22%. Our own lending rates have therefore been on a steadily declining trend, dropping from 10.5% in 2000 to 7.5% in 2004. The poor lending climate and fiercely competitive market have therefore resulted in a drop in Loans & Overdrafts from \$185M in 2003 to 144M in 2004 or a 21.9% decline.

To sustain the performance results, NBD has had to diversify its portfolio in the year under review to focus on short to medium-term investments. In 2004 investments rose by \$74M or 107.44% over 2003 levels to \$142M. The bank increased its investment activity in order to strategically balance its Earnings Assets portfolios and effectively deploy some of its excess liquidity.

Pre- tax earnings of the group in 2004 climbed to \$4.4M, a 13.9% increase over 2003 levels.

SECURITIES / INVESTMENT UNIT The wholly owned subsidiary, National Mortgage Finance Company (NMFC) recorded asset growth of \$1.8M or 8.3% over 2003 levels to \$23.5M.

The Eastern Caribbean Central Bank's June 30, 2004 report on the banking sector in Dominica indicated that total commercial Bank's assets grew to \$1.023BN, an increase of \$104M or 11% over the corresponding period last year, of which NBD enjoyed \$511.5M or 50% of market share. This is an increase 5.6% in the bank's share of the market from 44.4% in 2003.

According to Central Bank's statistics, total domestic Loans and Overdrafts market declined by \$52M or 21.93% to 481M in 2004 compared to \$583M in 2003. NBD's portion of this market stood at 30% as at June 30, 2004 down from 34.64% in the 2003 period.

The total Deposits market posted a significant increase for the second year in a row. Deposits grew by 13.32% to \$860.8M of which NBD secured a 48.2% market share, up from 44.4% in 2003.

Despite the difficult economic situation the National Bank has been able to grow its market share, succeeded in achieving some of its strategic objectives, and return reasonable

results during the year.

Net interest income increased by \$0.7M or 7% over 2003 levels. The increase was partly a result of reducing interest rates on deposits, a strategic move fueled by the decline in lending rates and the poor lending environment. In addition, given the US Fed rate declined over the year, resulting in lower than normal returns on investments, the Bank had to cut rates on deposits in order to maintain the Net Interest Margin.

Interest Earning Assets increased by 13% or \$33.3M over 2003. This was due to the continued strong liquidity levels and the Bank's portfolio re-balancing towards investment securities. Return on Assets increased marginally by 20 basis points while return on shareholders equity increased to 5.49% compared to 5.14% in 2003. Net Earnings per share in 2004 was

\$4.42 compared to \$3.88 in 2003.

(Directors' Report cont.)

Non-interest Income

Total Non- Interest Income decreased marginally by \$0.1M or 3.32% for the year under review. This decline was as a result of the competitive environment in service charges and foreign exchange commissions. Foreign Exchange commissions arise from the facilitation of financial transactions on behalf of customers to include international funds transfers, documentary collections and letters of credit. Given the general decline in business volume in the economy, the Bank has had to compete increasingly to retain existing business and acquire new ones by matching and exceeding competitors offers.

Non – Interest Expenses

Total non-interest expenses increased by \$1.6M or 26.98% over 2003. This increase was due in large part to the addition of the Independence Street Branch as well as other additions to staff brought about by the increased customer base.

MACRO ECONOMIC ANALYSIS

On March 24, 2004, the IMF approved its first review of the three-year US\$11.3Mn Poverty Reduction and Growth Facility (PRGF), signed in December 2003. As a result, US\$0.5mn was released immediately to the government, taking the total disbursement so far to US\$3.9mn. Also, in April, as part of its fiscal consolidation efforts, the government announced a debt restructuring plan that would extend the maturity profile of the country's total debt stock. NBD currently holds \$23.8M in government paper, which will be subject to debt restructuring. No materially adverse effect on NBD's net position is expected.

Value-added-tax (VAT) is tentatively set to be implemented effective July 1, 2005 as part of the vigorous set of reforms undertaken by government. Although Banks will not be required to collect VAT on their services, they will also not be exempt from paying VAT on non-interest expenses. These new measures will have a significant increase on the non-interest cost of operating in the post VAT implementation period. NBD intends to meet this

new challenge as we continue to provide internationally

Customer Service representatives

National Bank of Dominica . 2004 Annual Report . 20

competitive services to our customers.

DEPOSITS

Customer deposits rose significantly by \$64.6M or 18.46% to \$414M. There was a marked increase in savings deposits from \$94M to \$146M, a 35.62% increase. Time Deposits increased moderately by \$8M or 6.06%. Likewise Demand Deposits increased \$4M or 2.94%.

Risk Management Currency Risk

Assets are primarily funded in Eastern Caribbean and United States Dollars to minimize the currency risks. Funds received in volatile currencies over the level needed to maintain settlements are converted to stable currencies on the international money markets.

INTEREST RATE RISKS

In order to hedge fluctuations in market interest rates, investments are held in low volatility instruments for short to medium terms. In addition, the Bank actively seeks to attract lower-cost funds in order to stabilize its cost of capital.

LIQUIDITY RISKS

Daily calls on cash are met by adequately forecasting the inflows of cash from daily activities. This is supplemented by assets readily convertible to cash on demand and in short-term highly liquid instruments.

AUDITOR'S REPORT

To Shareholders National Bank of Dominica ROSEAU

We have audited the consolidated balance sheet of the **National Bank** of **Dominica** as at June 30, 2004 and the consolidated statements of earnings, statement of changes in equity, cash flows and notes to the financial statements for the year then ended. These financial statements are the responsibility of management of the **National Bank of Dominica**; our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with International Standards on Auditing. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatements. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statements presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, these financial statements present fairly in all material respects, the financial position of the Bank as at June 30, 2004 and the results of its operations and its cash flows for the year then ended and have been properly prepared in accordance with the Company's **Act 21 of 1994**.of the Laws of the Commonwealth of Dominica.

NATIONAL BANK OF DOMINICA NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30 2004.

I. INCORPORATION

The National Bank of Dominica is a body corporate established under the 1994Companies Act after Act 18 of 1993 repealing with certain savings Chap.74:02 Laws of the Commonwealth of Dominica. Its head office is located at Roseau, with branches at Portsmouth and Canefield and another branch in Roseau, formerly the Banque Francaise Commerciale acquired under SRI 7 of 2004 from 1st May 2004.

2. SIGNIFICANT ACCOUNTING POLICIES

a. Basis of Accounting

These consolidated financial statements are prepared in accordance with generally accepted accounting principles prescribed by International Accounting Standards. These financial statements are prepared under the historical cost convention as modified by the revaluation of available-for-sale investment securities.

b. Basis of Consolidation

These consolidated financial statements include the financial statements of the bank and its wholly owned subsidiary companies (National Mortgage Finance Company of Dominica Limited and National Investment Corporation). The statements are made up to June 30, 2004 after elimination of inter-company transactions and balances. The accounting policies used by the subsidiaries are as a whole consistent with that of the group.

c. Provision for loan losses

Specific provisions are made against loans and advances where in the opinion of management recovery is doubtful. In addition, a general provision is made based on exposures existing in the loan portfolio and other relevant factors. The aggregate provision made during the year (less recoveries of loans previously written off) are charged against earnings. Loans written off are charged against the provision. Provisions are calculated by the methods recommended by the Eastern Caribbean Central Bank. Other regulatory loan loss reserve above these requirements if any, are dealt with in the general banking risk reserve as an appropriation of retained earnings.

d. Accrual Accounting

Revenue and expenses are accounted for on the accrual basis of accounting. However, where significant doubt as to the collectibility of a loan arises, such loans are categorized as "non-performing" and interest is recognized only to the extent that payments are received. Non-performing loans are stated at principal outstanding, net of unearned interest.

2. SIGNIFICANT ACCOUNTING POLICIES (cont'd)

e. Foreign Currency Translation

Monetary assets and liabilities denominated in foreign currencies are translated into EC dollars at the mid- market rate of exchange prevailing at the balance sheet dates. Foreign exchange transactions during the year are converted at the rates prevailing on the transaction dates Gains or losses arising from foreign currency transactions are included in the consolidated statement of earnings.

f. Depreciation

Depreciation is provided for on depreciable assets on the straight line method at rates estimated to write off the cost of the assets over their estimated useful lives. The rates currently in use are:

Building	3%
Furniture & Equipmentl	2.5%
Computers	33%
Motor Vehicles	20%
Leasehold improvements	20%

g. Investments

Short-term investments, those with an original maturity of less than twelve months, are stated at cost. Investments in dated and Money Market securities are stated at cost, net of adjustments for the amortization of premiums, discounts and commissions over periods to redemption Other investments are stated at cost less provision for diminution in value. Certain other investments are stated at fair (market) values and also shown at cost. Investments may be held-for-trading, held-to-maturity or available-for-sale.

National Bank of Dominica . 2004 Annual Report . 29

H. INCOME TAX

Income tax is accounted for under the tax payable method, whereby the actual tax payable is charged to earnings.

I. ACCEPTANCES, GUARANTEES AND LETTERS OF CREDIT

The Bank's potential liability for acceptances, guarantees and confirmed credits is reported as a liability in the balance sheet. The Bank has equal and offsetting claims against its customers, in the event of a call on these commitments, which are represented as an asset.

J. ACCOUNTING FOR LEASES-WHERE THE COMPANY IS THE LESSEE.

Leases entered into by the company are all classified as operating leases and hence payments made under the terms of the lease are all charged to the income and expenses account in accordance with the lease agreement.

K. PROVISIONS.

Included under other liabilities are provisions for which arose as a result of a constructive agreement for the employees to provide them with a defined benefit. It is generally contributed to by the employer and the employee. The funds are not held by or be under separate trustee administration

12. SHARE CAPITAL

Share capital authorized is 1 million shares of 10 each = 10 million. Issued and fully paid.

I3. RESERVE FUND

Section 40 of Chapter 74.02 of the Laws of Dominica provides that not less than 25 % of the annual net earnings of the Bank shall be set aside to a reserve fund whenever the fund is less than the issued paid-up capital of the Bank.

NATIONAL BANK OF DOMINICA NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2004

14. TAX EXEMPT INCOME IN RETAINED EARNINGS

Included in retained earnings as at June 30, 2004 is undistributed tax exempt income amounting to \$ 45.6Million arrived at as follows:

,	2004	2003
	\$	\$
Undistributed tax exempt		
income - beginning of year	40,985,594	38,397,821
Add: Tax exempt income for the year (net)	6,188,631	4,087,773
	47,174,225	42,485,594
Deduct: Dividends issued out of tax exempt income	(1,500,000)	(1,500,000)
TAX EXEMPT INCOME -end of year	45,674,225	40,985,594
15. PROVISION FOR INCOME TAX		
The tax on the operating profit differs from the theoretical		
amount that would arise using the basic tax rate of 30%		
on the consolidated accounts as follows: -		
Profit before tax	4,419,076	3,879,055
Effect of differences		
between depreciation and wear & tear	140,765	(13,514)
Effect of tax exempt income	(6,188,631)	(4,087,773)
Fixed assets disposals (gain)/loss	(77,940)	(23,221)
Expenses disallowed for tax/other	67,125	91,753
	(1 (20 (05)	
	(1,639,605)	(153,700)

The deferred tax asset relative to the carry forward of tax losses are recognized to the extent that it is probable that the future taxable profits will arise to have it set off against the profits.

I6. EARNINGS PER SHARE

Calculation of earnings per share is based on earnings of \$4,419,076 (2003 \$3,879,055) over (one) I million shares in issue during the two years ended June 30, 2004.

17. BANKING REGULATIONS.

The disclosures required under SR 055 of 1993 are made in note 2(c) and the financial statements generally.

National Bank of Dominica . 2004 Annual Report . 35

I8. RELATED PARTY

In the normal course of business directors of the bank do banking transactions on commercial terms and conditions and at prevailing market rates. At June 30, 2004 directors owed \$1.4 million (June 30, 2003 \$0.74 million). Lease payments totalling \$158,256 was made t a company whose director holds a controlling interest therein. Staff members enjoy preferred rates, and at June 30, 2004 owed \$5.0 million (June 30, 2003, \$3.0 million). The Government of Dominica owns 48.6% of the shares of the Bank. Total exposure of the Bank to Government was \$10.8 million [\$48 million at June 30, 2003]. That figure included loans and/or guarantees for para - statals and other corporate entities.

19. FINANCIAL INSTRUMENTS.

(a) Primary & Derivative financial instruments.

Management is not aware of any factors that should significantly affect the values as stated in the financial statements . Events to the balance sheet date have not occurred that should suggest that the balances reported are not fair estimates. Events include the government debt restructuring programme which will entail the surrendering of certain Citibank bonds in return for more than equivalent amounts in government's own bonds plus exgratia payments. Besides the investments disclosed in Note 5, most of the financial instruments are of a short term nature. Loans receivable (net of provision for bad debts) and customers' deposits are estimated to be fair values. Provision for uncollectibles is based on formula recommended by the Central Bank. Sole derivatives financial instruments relate to certificates of participation in Government of Dominica Bonds as recorded in note 5.

(b) Risk factors.

Risk factors to the Bank correlates with the adverse economic situation current in Dominica economic situation current in Dominica. Matters of risk are reviewed and managed by the Bank's own in-house team. The single most material risk factor relates to the Government of Dominica as is disclosed in Note 18 above. At June 30, 2004 Government had defaulted on some of its obligations.

(b (i) Currency risk.

The currencies mostly traded in are the US dollar, pound sterling, Euros and EC dollar which is officially tied to the US dollar. With foreign currencies being also held with correspondence banks, the bank is able to hedge any currency exposure arising from any trading activities.

(ii) Interest rate risk.

Based on contractual pricing or maturity dates, the bank is able to monitor any mismatching of interest rates which can arise from fluctuations in existing levels of interest rates. Variations in the interest rates receivable on assets and that payable on liabilities expose the bank to interest rate risks. Through repricing and variability of investing, the bank is able to maintain and monitor its interest rate risk at a favourable position.
